#### PROGRAM INFORMATION

## People of the Earth

Join us in discovering how the Tongva met their needs for mes, food, clothes, and medicine by using the resources of their environment, the Santa Ana River

Students will learn how connections to the land were vital to the survival of the Tongva who once lived along the Santa Ana River.

Emphasis is placed on the importance of the river and wetlands in the daily life of the Tongva prior to European settlement. This is a very hands-on program where students will play games, use musical instruments, sing songs, use a pump drill, grind seed, and more.

## Life along the River
