BEAR CREEK

STUDENT CENTER

At the Bear Creek Student Center, we are exploring the ways that each of Leonardo Da Vinci's principles can be applied to serve us in our everyday academic life. Each month, we will explore one of Leonardo Da Vinci's principles, and how we can use that principle to become better students, better friends, and better citizens of the world. Our theme for the month of September is **Curiosita** (Curiosity-An Insatiably Curious Approach to Life and an Unrelenting Quest for Continuous Learning).

Level Up Village-Learning with a Global Partner

The Bear Creek Student Center is very proud to be participating in an elective for students called Global Web Design. In this elective, students will learn how to code websites and work with their global partners to design and publish a social awareness website on the theme of global climate change. The partner school that will work with Bear Creek on this global project is located in Palestine. This is an amazing opportunity for our Bear Creek students to partner with students from another country, sharing ideas for a common global cause. It is going to be very exciting.

CITE *Rose Kelley*

Career Internship
Technical Education

As an 11th Grade Homeschool student, began taking her Career Technical (CTE) courses

in 9th grade. She started with CTE Digital Imaging and discovered her passion for media arts. She continued her CTE coursework by taking Introduction to Photography and completing an internship with Vista Library. At the library, she worked to create a Photo Exhibit of her work. With the help of a private donor, Rose was able to print her images in a large format for the guests of the library to enjoy. This exhibit got wonderful reviews. Rose has now been asked to move her exhibit to Oceanside Library. She has also been asked to expand her collection from seven pieces to twenty pieces. The Oceanside Library exhibit will be part of the library's art walk located on the upper level of the library. This exhibit will open in October. Career Technical Education (CTE) and Internship/Work Experience Education (WEE) in action providing the students the opportunities of a lifetime!

Too many cares are just too heavy to carry alone! Ms. Tett, our new school counselor, came into our CSC middle school class to emphasize that too many cares, concerns, and problems may be too heavy for one person to carry when one is stacked upon another. Ally was a great sport and let us see a visual example of how these burdens can stack up in our lives. Ms. Tett let us know that her door is open to those who would like to chat with our new site counselor. Welcome, Ms. Tett!

Congratulations, Corona Student Center Mosaic Academy! Raising CAASPP scores in double digit numbers for both ELA and MATH! Mrs. Wickwire, Temecula Student Center Principal and Ms. Zinda, Corona Student Center Principal, sharing this beautiful moment at our annual Ignite Conference. We are so incredibly proud of our Students and our Staff. Come to the CSC Site to see our Binary Branches Award 2015 - 2016 School Year displayed in the front office.

Our Corona Aces Ms. Sally, Ms. Val, Ms. Barb, Ms. Morgan, Ms. Sara, and Ms. Bianca hard at work supporting student achievement. We are so excited and thankful to have these stellar ladies at CSC!

Flabob Airport Constructions Update

On August 18th and then again on September 1st, the city of Jurupa Valley City Council members voted to pass a resolution closing 42nd street for our new school project! This was one of the conditions stipulated by the Planning Commission. We are one step closer! Thank you, Council members!

Orientation for both FAPA and Magnolia was set up differently this year. Parents appreciated the amount of information they received.

School began on Tuesday, August 30th, at the site. Over 450 students filled the empty hallways and took their place in their classes. Excited teachers and staff could hardly contain their enthusiasm. It was a wonderful day.

Back to School Night had parents wandering the hallways trying to find their child's classroom. The parents heard from the teacher about the subject content, grading policies and other important information to begin a successful year.

HEMET STUDENT CENTER

First Week of School “Mix It Up Week”

We have had an amazing start to the 2016-2017 school year! Our high school students and staff had a blast during our inaugural “Mix It Up” week. It was such a treat to witness our freshmen, sophomores, juniors, and seniors collaborate with one another to create a community that supports teamwork, character building, as well as academic and personal growth and success! On the last day, everyone enjoyed a delicious BBQ, games, music, dancing, and good ole fun. Our students and staff ROCK!

The homeschool program serving students in grades Tk-12 is in full swing, with

parents digging into new curriculum and taking field study trips!

We have hired and trained 5 new Education Specialists this year bringing our total Education Specialists to 103. The Education Specialists have collaborated with families to choose curriculum

and create learning and assessment plans for the school year. In addition to the support of homeschool directors in the Personalized Learning Department, the homeschool program is supported by the purchasing and curriculum warehouse staff as well as our field trip and special event coordinators! New this year for families in the homeschool program is a co-op option that will be developed throughout the year to provide parents an opportunity to plan and implement enriching opportunities for their students.

RANCHO CUCAMONGA

PERSONALIZED LEARNING CENTER

The Personalized Learning Department has launched its homeschool hybrid Discovery Collaborative program (Tk-8) and its U-lab program (9-12) in Rancho Cucamonga! Students attend classes on Monday, Wednesday, and Friday with home study days on Tuesday and Thursday. The Rancho Cucamonga Student Center is home to the Discovery Collaborative Tk-8 program, U-lab for 9-12, Keys, and of course a thriving Homeschool Learning Center! During the first week of school, students participated in WoW week which is a Week of Welcome. Led by Colette Bozek, the students spent their first week, participating in team building activities and projects that support the program's mission and vision. We look forward to sharing throughout the year our development of this exciting new addition to the Springs' family.

PALM ACADEMY

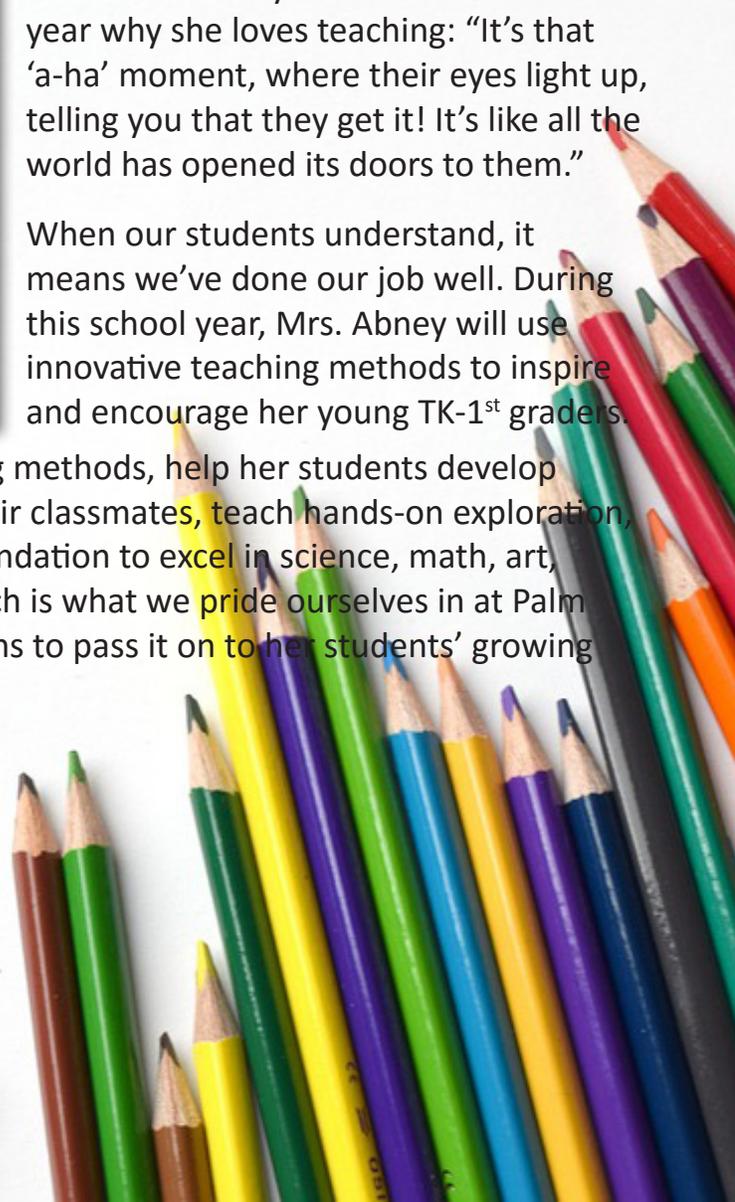

Welcomes Elle Abney

As a brilliant teacher who believes all learners are individuals and it's important to celebrate their uniqueness, Mrs. Abney is the perfect new addition to Palm Academy! She's reminded this year why she loves teaching: "It's that 'a-ha' moment, where their eyes light up, telling you that they get it! It's like all the world has opened its doors to them."

When our students understand, it means we've done our job well. During this school year, Mrs. Abney will use innovative teaching methods to inspire and encourage her young TK-1st graders.

She'll teach strategic grouping methods, help her students develop healthy relationships with their classmates, teach hands-on exploration, and give them the proper foundation to excel in science, math, art, and much more! This approach is what we pride ourselves in at Palm Academy and Mrs. Abney plans to pass it on to her students' growing minds.

Did you know that Venture Online Academy is not only an excellent option for K-8 students but is also an amazing place for High School students?

Every Venture Online Academy student has instant access to a credentialed teacher in each of their core subject areas. Students can enroll in any of Spirings online electives, can join learning center classes and can participate in the field trips Spirings offers, all while crafting their own personalized learning plan and flexible schedule.

High school is a tough transition for both parents and students and we all know there is no one solution to support all of our students. Next time you have a student or parent asking about high school options- please consider Venture. We've been a great fit for students who travel frequently for gymnastics, have crazy schedules because of all of their auditions, have to leave town for extended periods of time, and for student who thrives in an online virtual community.

To learn more about Venture please reach out to the
Program Facilitator: Michelle Lomas
michelle.lomas@springscs.org
or
Program Director: Andrea Leib
andrea.leib@springscs.org
